

Release Note – 25h.Cloud

Release Date	13 – November – 2020
Product	25h.Cloud
Version	VERSION 2.27.0
Bug Fixes	Various

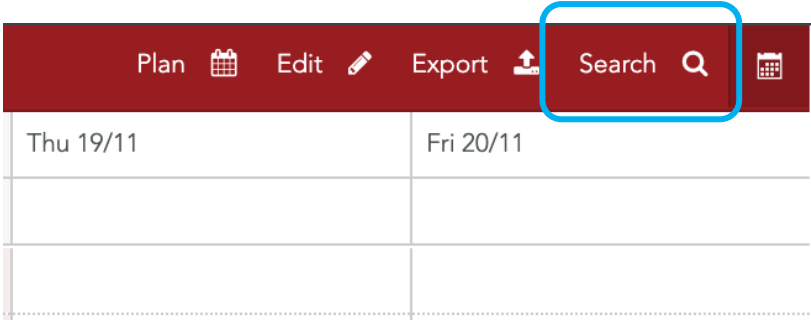

New Features / Improvements LOGIN_Registration (Sign up)	It is now possible to register only for the Visualizer version when registering. This (simplified) system version is limited to displaying customers and routes (map + customer list). In this version there is no option for planning and a calendar is also not available.
---	--

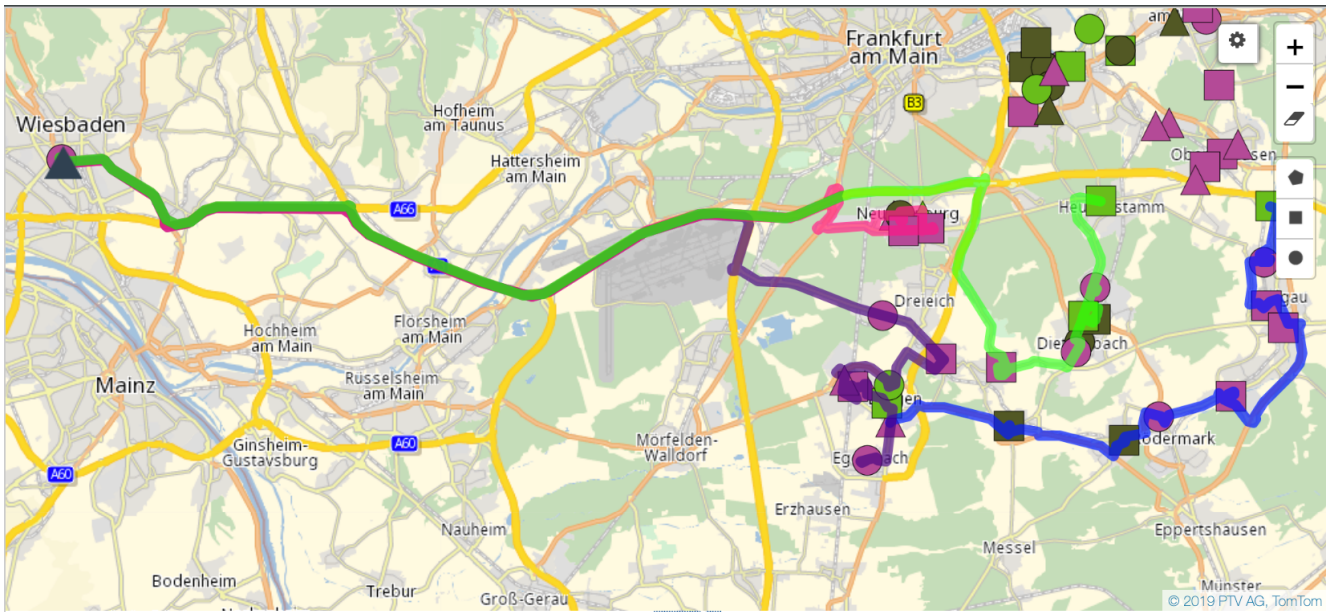

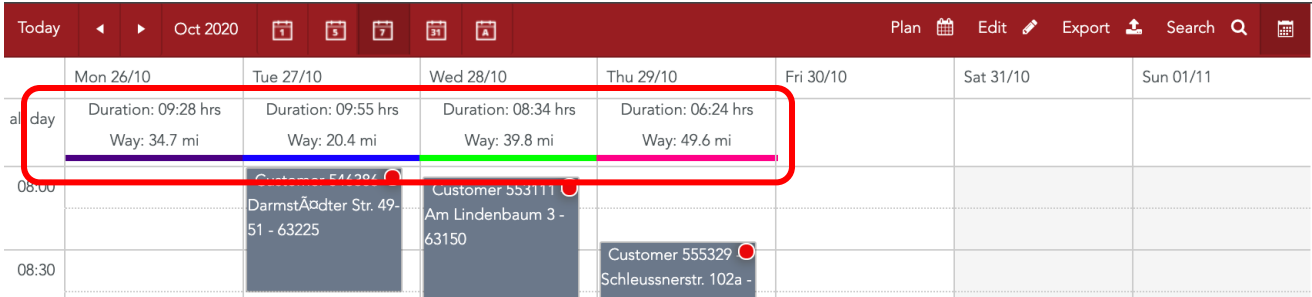

The screenshot shows the registration interface for 25h.Cloud. At the top, there is a dark header with the 25h logo on the left and the ACTnet logo on the right. Below the header, the form contains several input fields: NAME, EMAIL, and PHONE, each with a corresponding text box. Below these is a LANGUAGE dropdown menu currently set to 'English (UK)'. Under the language selection, there are two checkboxes: 'Visualizer Version' (which is highlighted with a red rectangle) and 'Setup With Test Data'. Below the checkboxes is a large red button with the text 'Start your free trial of 25H.CLOUD' and a smaller line of text below it: 'AN ACTIVATION EMAIL WILL BE SENT TO REQUEST A PASSWORD.' At the bottom of the form, there is a small line of text: 'By starting the trial you agree to the [Terms of Use](#).'

Release Note – 25h.Cloud

New Features / Improvements DASHBOARD_Calendar	Users have now the option to search for customers/visits within the calendar.
---	---

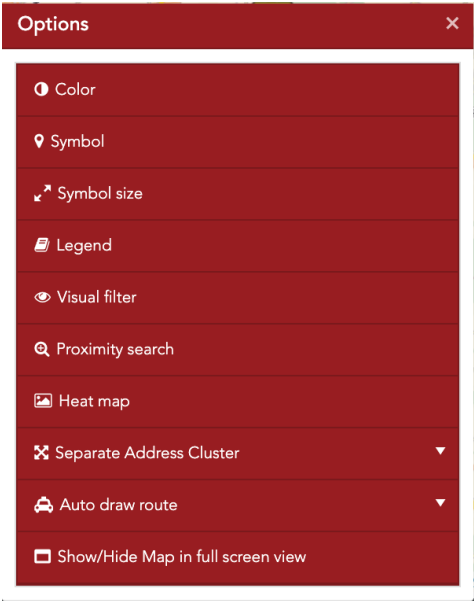

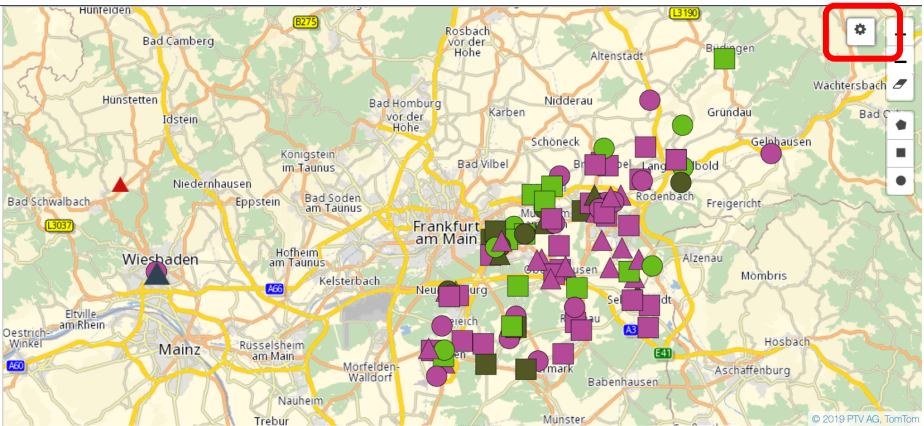

New Features / Improvements DASHBOARD_Calendar	Duration and Way of the daily route are now displayed in the calendar in week, work week and single day view. The colors correspond to the displayed routes on the map (Auto draw route).
---	---

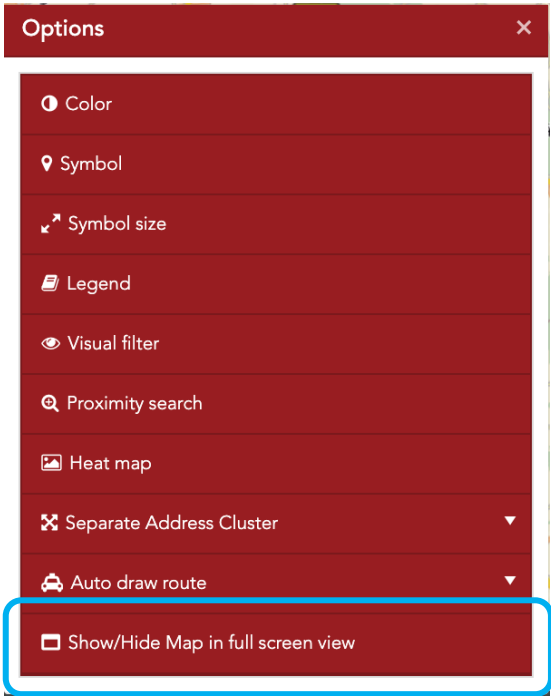

Release Note – 25h.Cloud

New Features / Improvements DASHBOARD_Map	The map options have been combined and can be opened and edited by clicking on "Options".
--	---

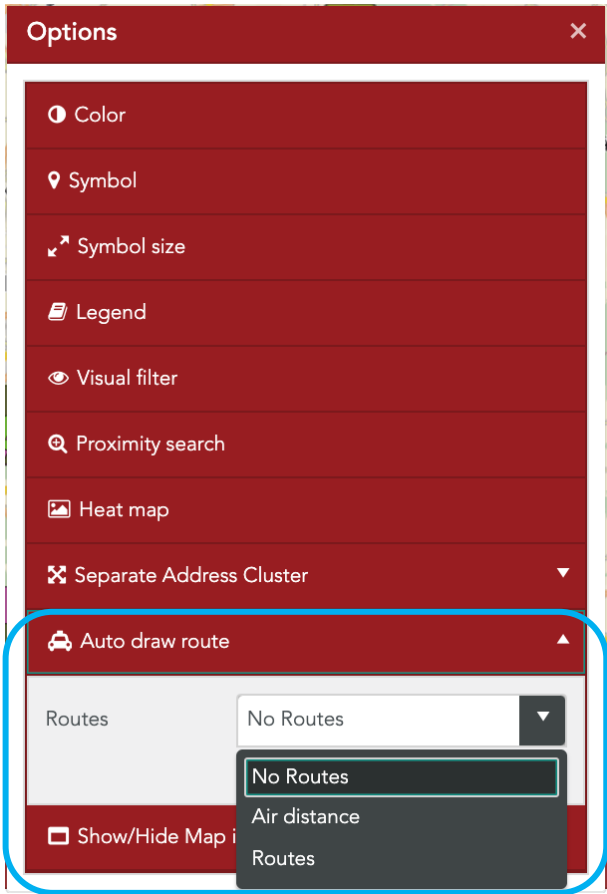

New Features / Improvements DASHBOARD_Map	The map can now be displayed in full screen view.
--	---

Release Note – 25h.Cloud

New Features / Improvements DASHBOARD_Map	Auto draw route has been changed and users can now select between displaying of routes or air distances.
--	--

New Features / Improvements User information	An Administrator can now block the possibility for single users to update visits from the past and deleting of visits.
